**Special
Commodity Code
Fact Sheets Report**

Steps to a Healthier You

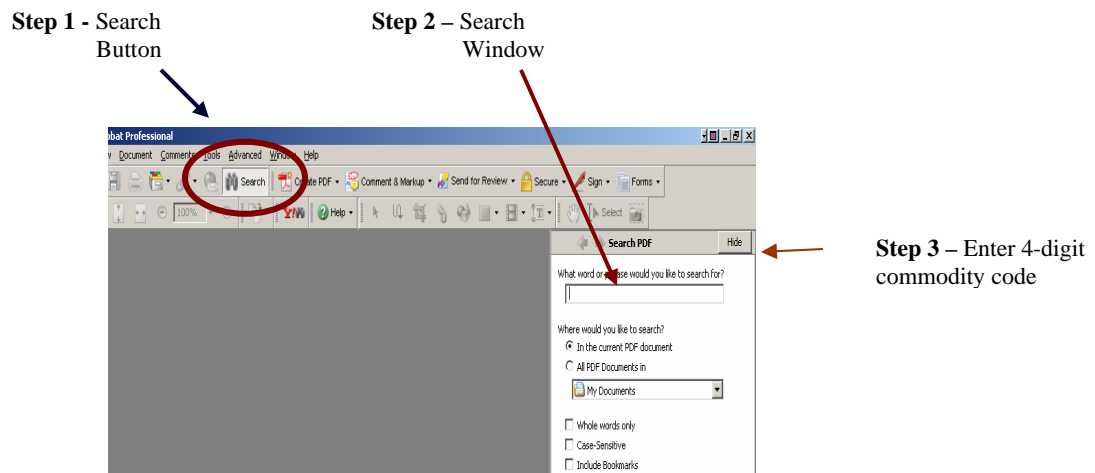

INTRODUCTION

Overview

This is a Special Commodity Fact Sheet Report that includes the 4-digit commodity codes and contains over 250 fact sheets developed for schools and institutions participating in the NSLP, CACFP, SFSP, and NSIP. Each fact sheet provides a basic description of the USDA product, pack size and yield information, storage information, and nutritional facts such as the total number of calories, cholesterol and vitamin levels, fat and sodium contents, etc.

Adobe PDF Search Tips

The fact sheets contained in this report are sorted alphabetically by commodity title and include the assigned 4-digit commodity code. Please note that you can use the Adobe “Search” feature to quickly locate any fact sheet in this report by entering the 4-digit commodity code or the commodity title in the Adobe search window, which will be displayed on your right after you click on the “Search Button” at the top of your screen (i.e., the button with the binoculars-icon). See illustration below:

Please email any questions or comments to the FDD Program Support Branch at: fdd-psb@fns.usda.gov. Also, for more information about our the Food Distribution Programs, please visit our FD website at: <http://www.fns.usda.gov/fdd>.
